## 22.13 Policy

- 22.13.1 Chart results/analysis of a polygraph or computerized voice stress analysis test will not be used as the sole determinant on employment of a candidate. Any admission, statement/s, change of statement, or unexplained or unsatisfactory explanations of inconsistent statements during pretest, test, or post-test interviews may be used together with other information, which may be sufficient to support a decision relevant to employment status of a candidate.
