6.10.1 Purpose

To establish a concise chain of command and prevent confusion as to whom each employee is accountable to.

6.10.2 Rationale

Each employee must know to whom he/she must answer to and from whom he/she can get advice and direction. Since each Sheriff's Office component, and each member, are accountable to only one superior, it is less likely that a situation may arise in which an employee is tasked with obeying conflicting orders.
